

Manjeet

Java Backend Developer

PROFESSIONAL SUMMARY

Dynamic Backend Developer with expertise in Java, Spring Boot, and the Django Rest Framework, adept at fostering collaboration within cross-functional teams. Utilizes Generative AI to enhance backend solutions while quickly mastering new technologies, ensuring robust and scalable applications in high-paced development environments.

WORK EXPERIENCE

EsMagico Tech Studio

Backend Developer

October 2023 - January 2025

Job responsibilities:

- Successfully conducted a migration of over 100,000 users from a legacy PHP-based database to an updated modern application database, ensuring data integrity and consistency.
- Enhanced API performance by reducing response times from 15-20 seconds to between 100ms and 1.5 seconds using strategic techniques like pagination, and in-memory caching with Redis.
- Developed synchronization APIs to facilitate seamless data exchange between the application and client website databases, ensuring data consistency across platforms.

PROJECTS

1. Medico Life Partner | |

Python | Django Rest Api Framework | Celery |

Cron Job | Redis | Postgres | Git | RESTful APIs

- Led migration of over 100,000 users from PHP legacy system to modern database, ensuring data integrity and consistency.
- Improved API response times significantly using pagination, Redis caching, and optimized database queries.
- Reduced notification delivery time from hours to minutes for over 100,000 users using Celery and cron jobs.

2. Driver Drowsiness Detector | |

HTML5 | CSS3 | JavaScript | Teachable Machines | Git

- Created a Driver Drowsiness Detector using Teachable machines.
- Implemented a feature that plays a horn sound when the driver exhibits signs of drowsiness or sleepiness.

EDUCATION

Full Stack Web Development

Masai School, Bengaluru

September 2022 - October 2023

Bachelor of Technology (Mechanical Engineering)

Delhi Technical Campus,
Haryana

August 2016 - May 2020

TECHNICAL SKILLS

Java | Spring Boot | SQL |

Prompt Engineering | Redis |

Django Rest Api Framework |

Python | Celery

SOFT SKILLS

Attention to Detail | Teamwork |

Time Management |

Adaptability | Problem Solving
